3-D Co. Inc. Doniphan, NE

The 3-D Co. Inc. was a custom reloader who contracted with the Cascade Cartridge Co. to destroy some .22 rimfire ammunition that did not meet their specifications. As the story goes, instead of destroying this ammunition they purchased some special boxes, repacked the cartridges and sold them under their label. These boxes date from about 1978.

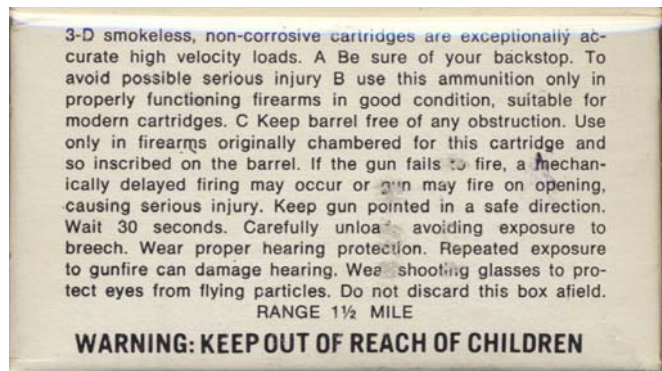

Needless to say, C.C.I. took legal action and stopped the future sales of these products. Boxes are somewhat difficult to locate. Anyone with these boxes probably should not shoot the contents.
