IRAN

INTRODUCTION

The Islamic Republic of Iran is located between the Caspian Sea and the Persian Gulf, in southeast Asia. It has an area of 636,293 sq. miles. As of 1973, it had a population of 75 million. The capital is Tehran. Historically this country was known as Persia. The economy is based upon oil and agriculture.

This country, to the best of our knowledge has never produced .22s. It has imported .22s from other countries for military training reasons. Prior to World War II, they imported some special boxes from R.W.S. of Germany. It is assumed that their current needs are being filled by purchases of standard boxes from other countries

THANKS

Special thanks to the following collectors for helping me with this project by supplying me with box images and sharing their knowledge. Presented in alphabetical order.
