NETHERLANDS

INTRODUCTION

The Kingdom of the Netherlands, a country of North-West Europe fronting on the North Sea and bordered by Belgium and Germany. It has an area of 16,039 sq. miles. The population is 16.8 million as of 2013. The capital is Amsterdam. The leading industries are textiles, shipbuilding and chemicals.

The Netherlands, or as some call it Holland, has never produced .22s, to best of our knowledge. The Dutch military has required .22s for their military training needs. These requirements have been contracted out to manufacturers in other countries. These has created some interesting boxes.

THANKS

Special thanks to the following collectors for helping me with this project by supplying me with box images and sharing their knowledge. Presented in alphabetical order.
